Ragify

Anurag Vinodkumar

Energetic individual ready to take on new challenges and adapt to new situations. Has hands on experiences in hackathons and projects. Passionate about photography, videography, quizzing and gaming.

## EDUCATION

2020 – Present

**Bachelor of Technology in Computer Science and Engineering,**

*Amrita Vishwa Vidyapeetham, Amritapuri*

CGPA: 8.71/10

2020

**All India Senior School Certificate Examination, Bhavan's Vidya Mandir Eroor**

Percentage: 92.2%

2018

**All India Secondary School Examination, Bhavan's Vidya Mandir Eroor**

Percentage: 94%

## EXPERIENCE

January 2021 – June 2021

**amFOSS, Former Member**

amFOSS is a Free and Open Source Software club. I used to be an active member of the club and took part actively in all events and competitions.

## PROJECTS

2021

**CoviRes, Tech stack: Python**

During COVID times me along with my team found out that it was tough for people to find emergency resources like oxygen cylinders, beds, etc. The solution we found is a Telegram bot that provides users with tweets scraped from Twitter about information on vital resources. The bot was used at Amrita Vishwa Vidyapeetham's helpdesk.

2021

**FarmEasy, Tech stack: Flask, HTML, CSS, Javascript, Python**

Farmers find it difficult to make profits from the hard work they put into their produce. FarmEasy is an e-commerce marketplace for buying farming goods and resources. It also gives farmers the exposure they need in order to thrive well in markets and keep up with other sellers in the same business.

2021

**Alpha-Wingman, Tech stack: Flask, HTML, CSS, Javascript, Python**

During this tough times when all the classes are online, students have found it hard to visit multiple websites to complete an assignment that involves summarizing, grammar checker, etc. Hence, Alpha-Wingman with the idea to assemble all of the required tools into a single page. Currently the application provides tools like a summarizer, speech to text editor, and a grammar checker.

## PROFESSIONAL CERTIFICATIONS

May 2022	<b>Data Science with Python, <i>simplilearn</i></b> <a href="#"></a> This Data Science with Python program provided me with a complete understanding of data analytics tools & techniques, data analysis, visualization, NumPy, SciPy, web scraping, and natural language processing.
September 2021	<b>30 Days of Google Cloud, <i>Google</i></b> <a href="#"></a> 30 Days of Google Cloud program provided an opportunity to get a hands-on practice on the Google Cloud Platform - a tool that powers applications like Google Search, Gmail and YouTube. This program has introduced me to Computing, Application Development, Big Data & Machine Learning using Google Cloud's training platform called Qwiklabs.
July 2023	<b>Foundations of User Experience (UX) Design, <i>Google</i></b> <a href="#"></a> Understood foundational concepts in UX design, such as user-centered design, the design process, accessibility, and equity-focused design.
August 2023	<b>Start the UX Design Process: Empathize, Define, and Ideate, <i>Google</i></b> <a href="#"></a> Learnt how to empathize with users and understand their pain points, define user needs using problem statements, and come up with lots of ideas for solutions to those user problems.
September 2023	<b>Create High-Fidelity Designs and Prototypes in Figma, <i>Google</i></b> <a href="#"></a> Understood the role of design critique sessions and feedback while iterating on designs and apply common visual design elements and principles.
October 2023	<b>Design a User Experience for Social Good &amp; Prepare for Jobs, <i>Google</i></b> <a href="#"></a> Successfully learnt to build wireframes, mockups, and low-fidelity and high-fidelity prototypes for a dedicated mobile app and a responsive website.
