January 2021 – June 2021	amFOSS, Former Member amFOSS is a Free and Open Source Software club. I used to be an active member of the club and took part actively in all events and competitions.
--------------------------	--

PROJECTS

2021	CoviRes, Tech stack: Python During COVID times me along with my team found out that it was tough for people to find emergency resources like oxygen cylinders, beds, etc. The solution we found is a Telegram bot that provides users with tweets scraped from Twitter about information on vital resources. The bot was used at Amrita Vishwa Vidyapeetham's helpdesk.
2021	FarmEasy, Tech stack: Flask, HTML, CSS, Javascript, Python Farmers find it difficult to make profits from the hard work they put into their produce. FarmEasy is an e-commerce marketplace for buying farming goods and resources. It also gives farmers the exposure they need in order to thrive well in markets and keep up with other sellers in the same business.
2021	Alpha-Wingman, Tech stack: Flask, HTML, CSS, Javascript, Python During this tough times when all the classes are online, students have found it hard to visit multiple websites to complete an assignment that involves summarizing, grammar checker, etc. Hence, Alpha-Wingman with the idea to assemble all of the required tools into a single page. Currently the application provides tools like a summarizer, speech to text editor, and a grammar checker.

PROFESSIONAL CERTIFICATIONS

July 2023 – December 2023

Google UX Design, *Google* [↗](#)

- Create High-Fidelity Designs and Prototypes in Figma
- Design a User Experience for Social Good & Prepare for Jobs
- Build Wireframes and Low-Fidelity Prototypes
